THE PRESIDENT'S MESSAGE. So long as the exercise of this power

WASHINGTON, Dec. 2.-The President's message presented to Congress, thanks the Divine Being for the continued bestowal of countless blessings upon our country. We are at peace with all nations. Our credit is probably stronger than ever before. There are abundant harvests, reviving industries and a promise of prosperity. He reviews the history of the yellow fever epidemic and says; The fearful spread of this pestilence has awakened very general public sentiment in favor of a national sanitary administration which shall not only control quarantine but have sanitary supervision of internal commerce in times of epidemics, and hold an advisory relation to state and municipal health authorities with power to deal with whatever endangers public health and which municipal and State authorities are unable to regulate. The National quarantine Act, approved April 29, 1878, which was passed too late at last session of Congress to provide means for carrying it into practical operation during the past season, is a step in the direction here indicated.

In view of the necessity and for the most effective measures, by quarantine and otherwise, for the protection of our sea ports and country generally from this and other epidemies. It is recommended that Congress give to the whole subject its early and careful name and character of a citizen of the consideration. The permanent pacification of the

country by the complete protection of all citizens, in every civil and political right, continues to be of paramount interest with the great body of our people. Every step in this direction is welcomed with public approval and every interruption of steady and uniform progress to desired consummation awakens general uneasines. And wid spread condemnation. Recent congress. sional elections have furnished a direct and trustworthy test of the advance thus far made in the practical establishment of the right of suffrages secured by the constitution to the liberated race in the Southern States. All disturbing influences, real or imaginary, had been removed from all these States. Three constitutional amendments which con erred freedom and equality of civil and political rights upon the colored people of the South, were adopted by the concurrent action of the great body of good citizens who maintained the authority of the Na-tional Government and the integrity and perpetuity of the Union, at much port the President says "In the prescost of treasure and life, as the wise and ent financial condition of the country, necessary embodiment in the organic I am persuaded that the welfare of the law of the just results of war. Friends of law and order looked forward to the conduct of these elections as offering to the general judgment of the country an important opportunity to measure the degree in which the right of suffrage could be exercised by the colored people and would be respected by their fellow citizens, But the general enjoyment of freedom of suffrage by the colored peo- and would aid the army in a task for ple and a more just and generous protection of that freedom by the Communities of which they form a part, were more generally anticipated than the record of the elections discloses. Tobacco and Teeth.

The dentists of New York have been nterviewed of late in regard to the effect of tobacco on the teeth, and a very singular coincidence in their views developed by the interviewers (nee reporters) viz: that the injury for the most part to the teeth and gums is occasioned by inveterate smoking. The most important fact developed, however, is the opinion expressed by Dr. Rich, one of the most popular and eminent of his class, viz: "Some longcut damp tobaccos have a bad effect on the teeth. In addition to that, they cause swelling of the mucous membrane of the soft palate. This is usualy accompanied by a slight catarrh of appear on relinquishing the use of the woe to the luckless wight that showed

How Radicals get up Their Lies

Courier-Journal. There is a great difference of opinion among the Radicals as to the extent of Southern Territory where negroes are 'shot, maimed, burned and pillaged' by Southern Democrats. The New York bloody-shirt journals tell us that this dreadful carnage goes on in sixteen States, and that it has been the practice for several years. Mr. Secretary Evarts, in a recent interview, said he believed the slaughter was confined to the States of Louisiana and South Carolina. The Chicago Journal says Kentucky is the arena of a continual massacre of colored people, the leading Democrats in the State taking part, and whetting their butcher knives before breakfast for the day's bloody work. These stalwart Radicals he very easily, but they are overdoing the matter and have struck snags. Kentucky Desperadoes Dis-perse a Court and kill the Judge. New York Times.

A fearful state of disorder exists in

Jackson, the county seat of Breathitt County, Ky. The country is wild and mountainous, and the people are hardly less wild—at least those who live remote from town. Like the aborigines, they sustain themselves principally by hunting and fishing. They are remarkably good shoots and effective assassins. They were largely engaged in bush-whacking during the war, and are so accustomed to murder that they do not look upon it with the horror with which it is regarded in civilized communities. For years they have been torn with family feuds and dissensions, handed down from father to son. They member of a family that had died of yellow fever were placed in a tub of hot water in the lot, near the residence to him who is most reckless of human at Memphis. A calf came along, drank life. The present frightful feud grew the water, and died. out of bitterness engendered by the August election for County Judge and

School Commissioner.
When the rioters assembled on Monday morning, the citizens of Jackson awaited in dreadful suspense the beginning of the bloody work. In the afternon the Sheriff. J. S.

Higgins, and his guard of 25 well-arm-ed men, marched into town with their prisoner. The opposing mob watched them in moody silence until the jail door had been closed upon the murder er. The guard, thinking that all trouble was at an end, were dispersing, when all at once a volley of buliets was poured upon them. At the first disbarge Judge Burnett fell dead, shot through the heart. The guard, attacked so unexpectedly, fled in every direc-

tion for shelter from the bullets that were rained after them. One Allen, a magistrate, who was leading the rioters, took possession of the Court house with his forces and dispersed the court The opposition faction, under the lead of a man named Strong, was determined to avenge the death of Judge Burnett. They threw up a barricade across the principal street, through the in-terstices of which bristled their ritle barrels. The Allen party-or rather the Little party, for Deputy Sheriff Little was with it—made a sortic upon the jail and tried to break in the door and release the prisoner. While they were battering away, a brother of the prisoner named, Tom Little, came to the front and tried to quell the riot. While he was speaking a rifle ball from the barricade killed him. The Allen party then retreated to the Court house, bullets falling about them thick and those parts, which, however, will dis- fast. Picket firing then begin, and himself plainly enough to make a target for a shot. This was kept up until the Court house, and the Sheriff and

his friends took possession. At last accounts a complete state of anarchy existed in Jackson and Breathit counties. The Governor has been appealed next session of court will be held with State Guards in the court room. Little will doubtless be returned to Lexington for safe keeping, if he is not killed or released on the road.

by Rev. H. H. Gibbons. Dr. Craven stated that seventy-five subscriptions to the proposed Quarterly Review had been obtained; the present periodical by that name, published by Dr. Bledsoe, would cease to exist under its present management. The management of the new publication had not definitely settled upon the name; it would probably be "I'he Review of the Methodist Rpiscopal Church South."

The committee on church property, Rev. Dr. J. B. Bobbitt, Chairman, made a report showing that there had been an increase in the number of churches and parsonages and the value of the same number of churches last year, 745; this year, 767; number of parse nages last year, 65; number this

Resolutions were introduced deprecating the use of churches for other

than religious purposes.

Rev. R. S. Webb, Chairman of the Sunday School Committee, reported an increase in this department of the church work, and introduced resolutions discountenancing any attempt to depart from the rules and regulations of the Church Discipline on the subject of Sunday schools, endorsing the combination lessons, arging the organization of missionary societies, and recommending active co operation with the inter-

national association. The report was received and adopted unanimously. Miss Deplina Mendenball, of the Society of Friends, was introduced to the conference, and a letter was read from her by the secretary extending fraternal greeting on the part of the female brane of the society, which she represented; also requesting the conference to take some steps to promote the purity of the young, especially of young

The committee upon the observance of the Sabbath, to which was referred an overture from the North Carolina Synod of the Presbyterian Church, and certain other papers, touching the run-ning of trains and unloading of freight cars on the Sabbath day, reported.

At night a general mass meeting was held on the subject of foreign missions. The church was crowded to its utmost capacity. After the reading of the re-port of the secretary of the board of missions, showing that the churches in the State had contributed about \$5,000, less than 10 cents per member, the meeting was addressed by J. W. Reid, Esq., of Rockingham county, who gave a full history of foreign mission work. At the close of his speech, a subscription was taken up for the cause and bout \$300 were collected.

An American Tragedy.

New York Tribune. There are people who will have it that all the romance has been taken out of our social life, and that nothing is left us calculated to inspire terror or pity. To this cause writers on the decline of the drama attribute the fact that we have no original American tragedies which are worth acting. Yet here is something which has just occurred in an obscure little town in Indiana, which if it had happened during the Middle Ages, would assuredly have been put into a poem or play-something which would not have been out of place in Boccaccio's "Decameron." It was at Azalia, Ohio. To the wedding feast of Willis Peele and Alice Brudge had many guests been bidden, and all went merry as a bridal bell until after supper. Now it must be know that many a lover had fallen at the feet of Alice, and all had been rejected save the truly lucky Willis. This, it is supposed, had something to do with the fact that strychnine was put into the food which furnished forth the marriage table, so that some of the wedding guests were naturally made extremely sick, some of them, it is feared, fatally so. The fiend in human form who put the poison into the food, it is surmised, was one of the despairing company of rejected lovers

THE OF to be the South. Its the entier RONS. For ST. BATI- ORGAN OF THE DEMOCRATIC PARTY The News Building, No. 6. Martin Stree

Among our telegrams will be found the President's Message. Only a synopsis of the document is given, the full text having failed to reach this city in time for publication in this issue.

The public entry of the Marquis of Lorne and the Princess Louise into Montreal Friday elicited a great demonstration of popular esteem and genuine loyalty. The vice-regal party were received with great enthusiasm at the railway terminus, and accompanied by an immense crowd to the hotel, from the balcony of which the Marquis reviewed the military The streets were decorated with arches, and brilliantly illuminated at night The ball at the Windsor Hotel was a brilliant affair. It was attended by the principal people of the city, and by many distinguished persons from other parts of the Dominion.

It appears that a poll-tax has a de pressing effect on the voters of Virginia The unofficial, but doubtless substantially accurate, returns of the recent election show a falling off from the vote of 1876 of over 42 per cent. Two years ago the vote was about 235,000. This year it was less than 135,000. In one district, the Third, it fell from nearly 30,000 to barely 10,000, In another, the Eighth, it fell from nearly 27,000 to scarcely 7,000. It is there a prere quisite to voting that a poll-tax receipt be shown. There seems to be no complaint about this requirement. Looked at in one way it certainly does seem that no one who does not pay even this slight tax should be allowed to vote.

The latest statement from the bureau of statistics shows that for the ten months ending October 31, the excess of exports of merchandise from this country over the imports amounted in value to \$237,000,000. The excess of fall below \$285,000,000. This has enabled and will enable us to keep at estim ted that we owed at one time the nations of Europe fifteen hundred millions in government bonds, railroad stocks and all sorts of corporate and municipal pledges. This immense aggregate has been reduced to the neighborhood of three hundred millions-so low, indeed, that it it said to be difficult to get together in London the bonds desired when balances to this country are to be paid. Another year will doubtless annihilate our foreign indebtedness, and, of course, the annual drain of interest-money on that ac-

This remarkable result is not wholly due to excessive exports, large as they are, but partly to a decrease in our imports. The value of imports for October was but \$37,000,000, or \$28,000,000 less than the exports, and \$6,500,000 less than the imports for the corresponding month of last year. During the year ending June 30, 1876, the favorable excess was \$79,643,481; 1877. \$151,152,094; 1878, \$257,786,964. The promise now is that the balance for the present fiscal year, ending with next June, will be even greater, rising to somewhere about \$300,000,000.

A Chance for Grant to be King.

The saffron-hued Senator from Mississippi reports that he met Gen. Grant in Paris and broached the subject of a third term. The General said that he would not seek a nomination, and that would rather not have it; but if it was tendered him he would not feel at liberty to decline. But the latest news about this peripatetic voyager is startling, and if its truth be only equal to its strangeness, this country has reason to rejoice at so delightful a means of getting rid of Ulysses for ever. The plan is telegraphed from Bulgaria, and is on the highest authority, or claims to be, that Gen. Grant has been proposed for the Bulgarian throne. It appears there is some foundation for the report. Under the provisions of the first and third articles of the Treaty of Berlin, Bulgaria is constituted an automatic tributary principality under the suzerainty of the Sultan, with a Christian Government and a national militia. The Prince is to be elected by the population, and their choice is to be approved and confirmed by the Porte, and by England, France, Germany, Russia, Austria and Italy. No member of any reigning European dynasty is eligible to the post, and this provision of the treaty has greatly limited the number of eligible candidates. The reputation of Gen. Grant as a soldier and ruler, it is said, have led the Bulgarian nobles, who are now debating among themselves the question of a ruler and details of the new Constitution, to look upon him as a most desirable Prince. It is urged that he would be most eminently fitted for the post. Under the provisions of the Treaty of Berlin the most perfect equality in political and religious rights is to be extended to all the inhabitants of Bulgaria, and it is thought that a wholly impartial foreigner like Gen. Grant can best secure the execution of laws designed to secure this equality. No formal proposition on the part of the Bulgarian notabilities

Presidential "Policy."

The recent press comments upon the

and the change is generally condemned by all save the most ultra journals. Anent the subject of the presidential policy, the Courier-Journal well says: The Republican leaders, the tendency of whose politics is toward aggressive Czarism, have not, in spite of the many prickly lessons taught them, learned that the Constitution of the United States simply vests the President with appointing an executive power, which latter means that his functions are those of a servant and that he must put into action the laws passed by Congress and the decrees of the judiciary. "Policy" he can have none under the Constitution. His course is marked out for him by the Constitution, and if he doesn't attend to his business, or if he steps beyond the limits of the functions assigned him, he can be impeached. In antagonism to this clearly established principle, the Republican organs conceive that the Southern States are conquered territory to be ruled by Haves as are Alsace and Lorraine ruled directly by the German Imperial Government. They refer without hesitation to certain election laws on the statute books as having been passed solely to be executed upon the Southern people. They call the constitutional amendments a treaty of peace "between the Confederacy and the Nation." It may please these singular Radical people to dream that the war is still in progress; that only a truce has been declared, but when they are awake and sober they find some strong reminders that the Southern States are quite as much members of the American Union as the Northern States; that the people have a right to vote as they please, and that they are entitled to manage their own affairs, without let or hinderance, and that they are not subject to any President's "Policy," but to the Constitution and laws of the United States. Grant had a " policy,"

run the Southern States back to barbarism and chaos. Mr. Hayes can do nothing except see that the Constitution and the laws are obeyed. There are excellent opportuniexports for the year will not therefore ties for him to act in this direction in the Northern States, where the practice commonly called "bulldozing" is home the year's product of our gold extensively prevalent, as was seen in and silver mines, and to add, according the late Massachusetts election. It is | isfied that he can go no farther; that the talk of "Hayes' policy" is without weight. Had the bayonets not been withdrawn from the South, Hayes would have branded himself as a perjurer at the start. The Constitution required him to perform the act, and he did it. His only duty now, for personal policy he has no right to have, is to maintain the supremacy of the laws and the Constitution.

MEDICINE.

Bile is the natural purgative of the bowels, and if the Liver becomes torpid it is not separated from the blood, but carried through the veins to all parts of the system, and in trying to escape through the pores of the skin, causes it to turn yellow or a dirty brown color. The stomach becomes diseased, and Dyspepsia, Indigestion, Constipation, Headache, Biliousness, Jaundice, Chills, Malarial Fevers, Piles, Sick and Sour Stomach, and general debility follow.

MERRELL'S HEPATINE, the great vegetable discovery for torpidity, causes the Liver to throw off from one to two ounces of bile each time the blood passes through it, as long as there is an excess of bile; and the effect of even a few doses upon yellow complexion or a brown dirty

The es themselves did the packing in se neat gless-sided boxes with which oit honey-eaters are familiar, and British are much surprised that we ave this industrious insect so well uncontrol. Eighty tons of sweets sposed the first load, contained in er half a million of those boxes. oney has control of 12,000 swarms of es, distributed throughout the country in apiaries of one hundred swarms each. The exportation of honey thus promises to bee-come one of the industries of the country.

Talmage on the Press.

Mr. Talmage has touched up the press men. He visited their offices at night. He saw the pen scratch and heard the se ssors cut and the types click and the wheels rush. Then he reflected that 2,600,000 persons read the daily newspapers of New York, and he said: once could not understand how the Bible statement could be true that nas tions shall be born in a day.' Now I understand it. Get the telegraph operators and the newspaper editors converted and in twenty-four hours the earth would hear salvation's call.' The Baltimore Gazette grimly adds that the editors and operators are as good as they can afford to be at present salaries, and Mr. Talmage, who is receiving \$12,000 per year for less work than the humblest of them performs, knows it as well as he knows his own

Perhaps the point of greatest general interest is the reappointment of representation in the lower brauch Congress, which must have as its basis the results of the census of 1880. Since the census of 1870 the population in the Northwest has enormously increased, while that in the East and South, except in Texas, has remained comparatively unchanged. Prominent politicians and statesmen who have een giving this matter attention are of the opinion that if party lines are the present time, that is with a Repubcan predominance in the East and West as opposed to a Solid South, the coming census cannot fail to restore to the colored vote of the South was given which will be sold low.

LIVER PILLS FOR THE CURE OF

Hepatitis, or Liver Complaint.

DYSPEPSIA AND SICK HEADACHE.

Symptoms of a Diseased Liver

DAIN in the right side, under the edge of the ribs, increases on pressure; sometimes the pain is in the left side; the patient is rarely able to lie on the left side; sometimes the pain is felt under the shoulder blade, and it frequently extends to the top of the shoulder, and is sometimes mistaken for rheumatism in the arm. The stomach is affected with loss of appetite and sickness; the bowels in general are costive, sometimes alternative with lax; the head is troubled with pain, accompanied with a dull, heavy sensation in the back part. There is generally a considerable loss of memory, accompanied with a painful sensation of having left undone something which ought to have been done. A slight, dry cough is sometimes an attendant. The patient complains of weariness and debility; he is easily startled, his feet are cold or burning, and he complains of a prickly sensation of the skin; his spirits are low; and although he is satisfied that exercise would be beneficial to him, yet he can scarcely summon up fortitude enough to try it. In fact, he distrusts every remedy. Several of the above symptoms attend the disease, but cases have occurred where few of them existed, yet examination of the body, after death, has shown the LIVER to have been extensively deranged.

AGUE AND FEVER.

DR. C. McLane's Liver Pills, in CASES OF AGUE AND FEVER, when taken with Quinine, are productive of the most happy results. No better cathartic can be used, preparatory to, or after taking Quinine. We would advise all who are afflicted with this

disease to give them a FAIR TRIAL. For all bilious derangements, and as a simple purgative, they are unequaled.

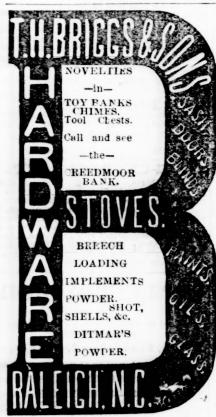

BEWARE OF IMITATIONS.

The genuine are never sugar coated. Every box has a red wax seal on the lid, with the impression Dr. McLane's LIVER PILLS.

The genuine McLane's LIVER PILLS bear the signatures of C. McLane and FLEMING BROS. on the wrappers. Insist upon having the genuine Dr. C. McLane's LIVER PILLS, prepared by Fleming Bros., of Pittsburgh, Pa., the market being full of imitations of the name McLane, spelled differently but

HOME REMEDY.

A CERTAIN AND SPEEDY GURE FOR SCROFULA.

FACTS ARE STUBBORN THINGS

TRADE MARK

(Registered.)

A BRIEF HISTORY :]

A BRIEF HISTORY:

The following is from the Raleigh News, and was a voluntary insertion and not an advertisement:

"Years ago an old Indian left a receipt for oring Scrofula with Mrs Person's father. Mrs. Person lives in Franklinton, or in that section. A child was born to Mrs, Person, and it had the Scrofula. The doctors gave it up to die. She thought of that receipt, that was now old and musty, and hid away in an upstairs drawer. She concluded if the child was bound to die, it wouldn't hurt to follow that receipt. She went out and gathered the herb, got the whiskey, and did as directed to the child. Her child now lives well and hearty. More than this: Only a few months since a South Carolinnan, whose name has slipped us, was suffering with some Scrofulous affection on the heel. He had been to the Hot Springs la Arkansas, and from there he went to K threll Springs. Notring dia him any good. At Kittiell's they told him of Mrs. Person's recipe, and Dr. — wrote to Mrs. Person of the cured him he could send her twenty-five dollars; she wouldn't ask fve hundred. The South Carolinian went home, and shordy afterward sent Mrs. Person a check for twenty-five dollars, and wrote the most grateful letter he knew how. Eless the se old Indians. We would like to have one for a near neighbor."

UNEQUALLED AS A BLOOD PURIFIER.

MRS. JOE PERSON : MRS. JOE PERSON:

The medicine I purchased of you last winter proved of lasting benefit to my son, who was troubled with 27 running sores, some of them quite large, and of a scrofulous nature. In less than three weeks after commencing the use of your remedy, he was perfectly restored, and is to-day quite sound and healthy. As a Tonic and Blood Purifier IT has no equal. Hoping that you may be spared for many years of usefulness, a remain, Very respectfully,

T. J. STOKES.

AS A TONIC AND ALTERATIVE

MOORESVILLE, IREDELL Co., N. C. Mooresville, Iredell Co., N. C.
Being desirous of adding my testimonial to others, concerning the merits of Mrs. Joe Person's Remedy for Scrofuia, I take pleasure in saying that as a tonic and alterative I do not think it has an equal. I have fairly tested it, and after trying Vegetine. Sarsaparilla, Vinegar Bitters, and various other remedies, I have no hesitation in pronouncing it far superior to any 10MC I have ever used. When I commenced using Mrs Person's Remedy I was very weak. complection sallow, and now I am Well, Respectfully your friend.

Kespectfully your friend,

Sept. 26, 1878, MRS, H, T, BROWN. THREE CHILDREN IN THREE WEEKS.

CASTALIA, N. C. MRS JOE PERSON:

Dear Madame—Your letter has been received, and on account of being absent from home for a week or two, have not had the opportunity to answer it. I certainly will take great pleasure in doing all that is within my power towards getting you patients for treatment of Scroula. I hardly know how to express my gratitude to you for cming my three little chindren. They took medicine from my family physician for about two years, with scarcely any relief at all. I tried your remedy, and in less than three weeks they were all perfectly cured, and have never shown any sign of breaking out again. I feel very thankful to you. I can safely say that I believe your remedy to be a certain cure for Scrofula. If I can ever be of any service to you in any way, I want you to be sure and call on me. Yours truly,

WM. H. ARKINGTON. MRS JOE PERSON :

It gives me much pleasure to be able to state that I have derived an effectual cure of Scrofula from the use of Mrs. Joe Person's remedy for that disease. I had suffered from Scrofula for mo. et than three years, and had despaired of eve. getting well. I was treated during that time by three very en.inent physicians, without any good resuit. I then went to the National Surgical Institute, at Atlanta, Ga., and was treated there more than two months, with no better result than my family physicians met with. After returned from the Institute I was persuaded to try Mrs. Person's remedy, and I had not used it more than a week before I discovered its curative and 'healing properties, My sores soon began to heal, and the color of my skin changed as fast at the sores healed. I had not thought of ever getting well again, but my hopes increased, my low spiritedness fled before the remedy, and I am now enloying splendid health and am in good spirits. The remedy is mild 2s a purgative, and a strong tonic; it will heal the most stubborn sore in three weeks if taken regularly. It is my opinion that it should be taken some time after the sore is healed, to remove the cause of its effects, It should be taken regularly by all means, for I have sometimes neglected it, from the pressure of business, and in all cases found that the cure alleady made would commence to retrograde, and for this alone it should be taken regularly until an effectual cure is completed. Nothing should prevent regularity in the use of the remedy and it should be taken at the proper time. I would recommend to all who are suffering from Scrofula to try it. It will surely cure you if you give it a fai test. I speak from experience, and not from hearsay. I am a graterul recipient of a cure from the use of it and I am under many and lasting obligations to Mrs. Person for the great relief I have obtained from its use. Sufferers, try it and be cured, is my advice.

I am, respectfully,

JAMES A. MORRIS. "It will Cure if Fairly Tested."

KITTRELLS, N. C.

My receipt for the cure of Scrofula has been tried by me with the most unprecedented success for the last twelve years, and I have no hesitation in recommending it as a sovereign cure for that disease and as a general Tonic and Blood Puriner, it is everywhere giving perfect satisfaction, while my experience with it is too limited for me to specially recommend it for other diseases, I believe it will ultimately prove to be of benefit in all cases arising from impurity of the blood' and probably for other diseases.

A CASE OF CANCER.

A CASE OF CANCER.

FAYETTEVILLE, N. C., Aug., 12, 18.8.

MRS. JOE PERSON:

Dear Madam—I have been using your Remedy for Scrofula over five months as an experiment for cancer. The cancer is of long standing, the doctors have been treating it, more or less, for twelve years, it has taken off my upper lip and a good part of my nose. When I began to use your Remedy it was growing rapidly worse, but the medicine scemed to check it very soon, and it has not made much progress since, except about two months ago, the medicine gave out, and I was without several days, it then seemed to start anew, and grew worse very put up in Patent stopped bottles. Having made a speciality of bottling this Beer, which is brew-d by us expressly for export trade, and which received the Prize Medal at the late Richmond, Va., State Fair, "for general excellence" and which has no superior Inthis or any other market.

I hereby tende my thinks to the citizens of North Carlina who have so liberally patronized me, and ask for a continuance of their patronage.

A BLOODY DEED.

Would-be Suicide-Laudanum first and the Razor After-

On Thursday last a man of about 30 years of age, of prepossessing appearance and neatly dressed, wrote in a bold hand upon the register of the Yarbrough the name J. R. Robbins, Cincinnati, Ohio. His card showed that he was a commercial traveller for a house in that city, engaged in the manufacture of safes. Friday and Saturday the young man appeared to

be rather the worse for liquor. Sunday he kept his room closely, and the door was locked nearly all day. It has since been ascertained that on that day he took two ounces of laudannm, but immediately vomited it up.
Yesterday he was in his room and

the door was locked. No particular attention was paid this, until, about 11:30, a servant passing heard a slight moaning within the room. He ran down to the office and informed Dr. Blacknall. The door of the room was hastily broken open, and those who entered were horrified at the sight which met their eyes. Stretched on the bed lay the man, on his back, his eyes staring and a broad, deep gash across his neck. In one hand was held a razor. The bed and carpet were bright red with blood which poured from the gaping wound in a steady stream. Measures were at once taken for his relief. Dr. E. Burke Haywood was sent for, while Dr. Blacknall did what he could to stop the flow of blood. The passages of the hotel were filled by an excited crowd. The Doctor sent for, on arrival sewed up the horrible gash and stopped the effusion. The young man after a considerable time was able to mutter in a coherent manner- He is now considered to be out of danger, and is given the best attention.

Sheriff Jeremiah J. Nowell gave bond for the collection of State taxes, in \$10,000; county taxes, \$10,000; and his official bond in \$10,000; all of which were received and ordered to be recorded.

Coroner William R. Richardson gave bond in sum of \$2,000; accepted.

Charles D. Upchurch Esq., gave bond as Clerk of the Superior Court, in the sum of \$10,000, which was ac-

cepted. After allowing an account for salary of an official, the Board adjourned, to meet at the Poor House to-day, and at the Court house again to-morrow. A careful examination of the condition of the buildings and their inmates, of whom there are now about 40 will be made.

Funeral of Msj. Seaton Gales. The last sad rites over all that was mortal of this beloved gentleman were held last Sabbath afternoon, from Christ church. The obsequies were strictly in charge of the Odd Fellows sylvania county, by W. P. Southern, of which society the deceased was one of the highest members. The three lodges of the city, Raleigh, Seaton Gales and Manteo, formed at the hall 1,062.54 and marched to the residence and there received the body. This lay in an elegant casket which loving hands had covered with flowers, all pure white, fitting emblems of the dead.

The pall bearers were the following gentlemen: Messrs. P. M. Hale, W. M. Boylan, J. C. Winder, P. A. Wiley, J. J. Litchford, W. R. Cox, T. D. Hogg, G. V. Strong, R. B. Haywood. W. H. Bagley, Pulaski Cowper and C.

M. Busbee

The casket was placed in the hearse and the line of march taken up for the church. The funeral cortege moved off in the following order: Raleigh Lodge, Seaton Gales Lodge, Manteo to the Auditor, receipts have not been Lodge, the hearse, the family and friends in carriages. The procession was lengthy, the number of Odd Felows being very large. On arrival at Christ Church the procession halted, the lodges joining hands while the hearse passed between the faced lines. The coffin was lifted out and carried in the church, being received at the north entrance by the Rector, while the organ pealed out its slow, sad notes. The services were then conducted. Re /. M. M. Marshall, D. D., the Rector, was assisted by Rev. Edward R. Rich, of the Church of the Good Shepherd. The instrumental and vocal rendering be had. A. W. Port Grape Wine.

This Wine is made in New Jersey, and is said to surpass anything in the way of Wine ever made. It is called Speer's Wine, produced by Mr. Speer. Since the true analysis of its properties has been published by James R. Chilton & Co., those who can afford it are adapting its use in preference to foreign Wines. Prof. Chilton used it in his own family, and has written to the public the following card:

Laboratory of S. R. Chilton & Co.,

New York, March 11.

We have recently made a careful analysis of the Port Grape Wine produced by Mr. Alfred Speer, and do not hesitate in pronouncing it pure; it contains all the properties of the Oporty grape, and therefore, for medical uses, it is superior to other Wines. Its principal effects upon the system are mildly stimulating, diurctic, sudorific and tonic. It will prove beneficial in affections of the kidneys and chronic diseases, with general debility of the constitution. Physicians may safely recommend it to their patients, in place of the many doubtful mixtures too often sold as pure wine,

The new combination of operating in stocks which Messrs. Lawrence & Co., Bankers, N. Y., have inaugurated, is attracting unusual attention in financial circles, by reasons of its remarkable success. B. F. Comttock, of Providence, invested nine times and made over \$5,000 in three months, by using from \$50 to \$500 capital. By this system, orders from thousands of customers in various sums are pooled into one immense capital, and operated as a mighty whole, thus giving to each shareholder all the advantages of vast capital and shrewdest skill. Profits are civided every 30 days. Any amount from \$10 to \$75,000 can be used in Messrs. Lawrence & Co.'s combinations with equal proportionate success, \$15 will make \$75 profit in the month. \$200 will return \$1,6% or 8 per cent, on the stock, and so on as the market varies.
